BAGUS HENDRAWAN

AI ENGINEER

Jakarta, Indonesia • (+62) 851-5670-3211 • bagushendrawan01@gmail.com • linkedin.com/in/bagus-hendrawan

Summary

Experienced AI Engineer with focus in design and development of AI-powered applications. Specialized in Agentic Multimodal AI, Web Development and Data Analytics. With hands-on experience in developing Agentic Chatbots, AI-Powered Document Extraction Systems and Custom Workflow Automation, I excel at translating business requirements into reliable, scalable, and practical AI solutions.

Skills

- Langchain & LangGraph
- RAG with MCP
- vLLM & LORA
- PostgreSQL & Elasticsearch
- FlashAttention / FP8 / quantization
- React & Nest.js
- Python & Javascript
- CoreML / ONNX / TensorRT
- Computer Vision
- Speech & Multimodal
- Docker & Kubernetes

Experience

AI Engineer **Apr 2025 - Present**
Ebdesk Malaysia Sdn Bhd *Petaling Jaya, Malaysia*

- Architected and delivered 3+ enterprise AI solutions spanning financial-document analysis, construction-plan compliance, and election intelligence using Langchain & LangGraph combined with Custom RAG with MCP.
- Developed an automated multimodal (Text, Image, Objects) extraction pipeline integrating Custom RT-DETR, YOLO and OCR converting raw information into structured, analytics-ready records for downstream analysis.
- Optimized and fine-tuned self-hosted LLM (vLLM & LORA) workflows across accuracy, latency, and inference cost, reducing average processing time by 30% and cost per document by 50% through prompt optimization, caching, batching, and model-routing strategies.
- Partnered with clients and cross-functional teams across 3+ technical engagements, translating business requirements into deployable AI architectures and presenting implementation trade-offs directly to stakeholders.

Data Analyst **Aug 2024 - Apr 2025**
Ebdesk Malaysia Sdn Bhd *Petaling Jaya, Malaysia*

- Delivered 8+ dashboards, interactive maps, and analytical reports using Tableau, Internal Development Platform, and custom web interfaces, improving access to operational and strategic insights.
- Engineered Spark, PostgreSQL, and Pandas pipelines to ingest, transform, and analyze datasets containing up to 150M raw records.
- Built analytical models using K-Means clustering, PCA, geospatial processing, Scikit-Learn and statistical analysis to identify patterns and provide meaningful insights.

Freelance Web Development **Sep 2024 - Present**
Independent *Remote*

- Designed and delivered 3+ full-stack commercial websites using React & Nest.js, for e-commerce and commercial use-cases with proper SEO optimization.
- Configured hosting infrastructure using Nginx, PM2, Docker, and cloud/VPS services, enabling reliable application deployment, restart recovery, and production monitoring.

Education

Bachelor of Applied Information Systems **Jun 2020 - Aug 2024**
Politeknik Negeri Media Kreatif *Jakarta, Indonesia*
Game Technology **GPA : 3.77/4.0**

Student Exchange - Computer Science, Artificial Intelligence **Aug 2023 - Dec 2023**
University of Missouri-Kansas City *Kansas City, USA*
Computer Science - Artificial Intelligence
